

New Zealand Football Coach Development Guide

2010

Welcome to the NZF Coach Development Brochure for the 2010 season.

Coach development in New Zealand is on the move with the continuation of our new coaching scheme offering you a coach-friendly and flexible approach to developing your coaching knowledge and skills.

The new scheme was introduced in 2008 and since then thousands of coaches have accessed our new learning opportunities throughout New Zealand.

The focus in 2010 is to provide our coaches with a wider range of learning opportunities and to bring learning right to your doorstep through housing more courses in clubs. The new Level 1 Youth Coaching Course and a range of modules at Level 2 will create bite sized opportunities for coaches to extend their learning.

NZF will offer Ongoing Personal Development (OPD) opportunities in 2010 through a range of formal and informal workshops and conferences that will take place across the country. These OPD opportunities will be available for coaches at all levels who want to refresh their knowledge, keep their qualifications current and/or to network with other coaches in their region.

2010 will be another exciting year for Coach Development with our Regional Coach

Development Managers (RCDMs) spearheading the charge to bring you more development opportunities and support for coaching. Each of our RCDM's work with local federations and local coaches to help coaches connect, stay informed and plan their OPD.

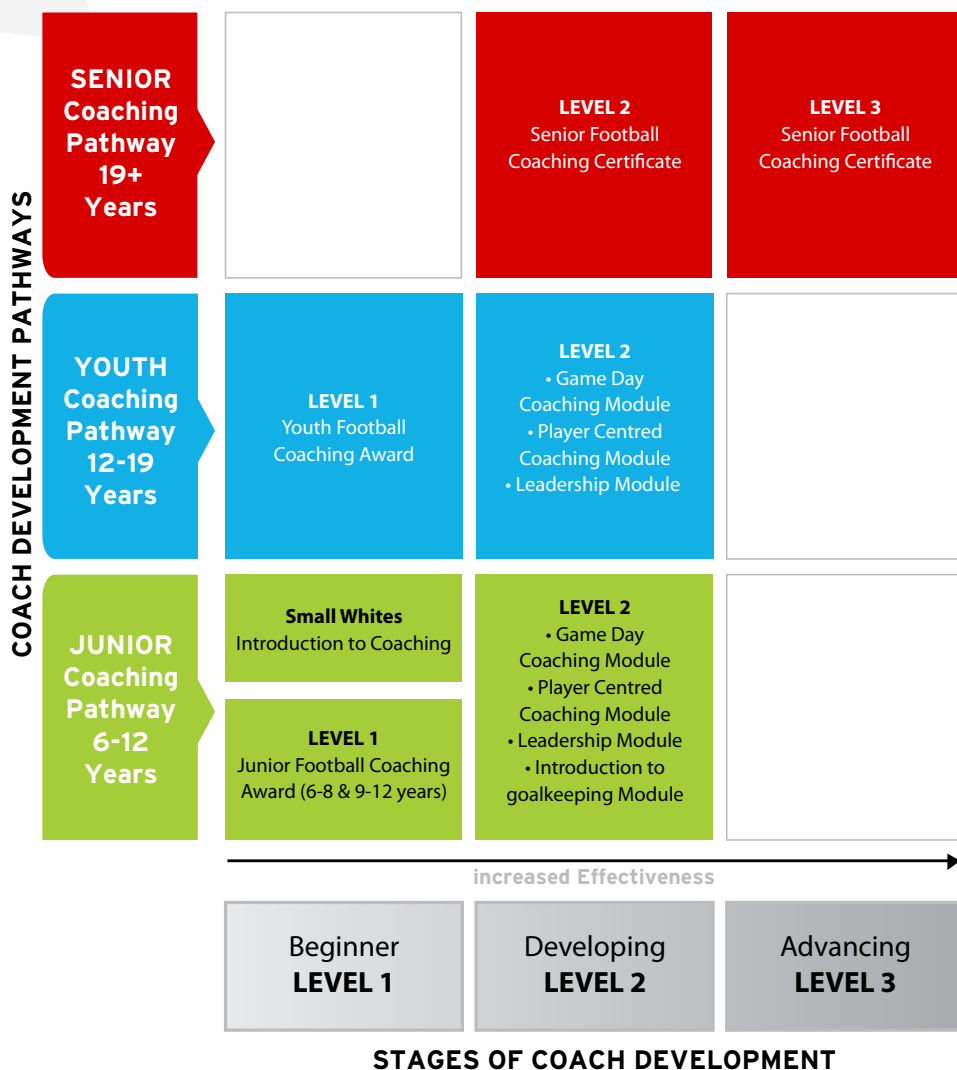

This plan of regional coach development opportunities for 2010 can be found on local federation websites.
