Special thanks to all teams, team managers, referees and the people responsible for organising this tournament

Another great year for the Ellerslie Summer 7-A-Side Tournament, and another win for the "Intercepts". They rightfully claim back the title that has almost exclusively been theirs over the past 10 years. Last year's winners PHFC struggled after claiming bragging rights last season, but the emergence of the Moo FC and Ah La Vache teams made the competition more competitive and has brought it back to life. Next year will be interesting as several teams are putting their hands up as potential winners.

Of course special mention for the Muppets as they just missed out on a top 6 place in grading, and went on to make it count in the championship round, they comfortably outplayed all other teams and finished top with a 10 point margin. Still some of the teams in this division will be pushing hard for Division A next year, should make for an interesting competition.

Thanks go to Ian McLean for setting up, running, and refereeing in this tournament (not to mention playing), without his work this great club competition would not be possible
